Supplementary Fig. 3

A) Graph showing glucose (mM) levels over time (0min, 15min, 30min, 60min, 90min, 120min) for WT and TG groups. The graph includes error bars and a star (*) indicating statistical significance.

B) Bar graph comparing physical activity (Counts) between WT and TG groups. The bar graph includes error bars.

C) Bar graph comparing glycerol levels (mM) between WT and TG groups.

D) Bar graph comparing TG levels (mM) between WT and TG groups.
